Due to COVID-19, and state social distancing guidelines, we now have to limit the number of members in the building, and pool, at a time.

Currently, you can make a 45-minute reservation for lap swimming. Please shower before you come, as locker rooms and showers are closed at this time. We ask you to wear your mask before and after you swim, but you can remove it while in the pool. Please exit the building at the time your reservation ends, so we don't have an overlap. Thank you for your patience & understanding.
